

Meritor Part

Meritor Parts - Meritor is a premier global dealer that is proudly built on a 100 year tradition of service and quality. They focus on a broad range of integrated systems, modules and components to original equipment manufacturers and the aftermarket for the industrial and transportation sectors.

Meritor values the requirements of their clients to guarantee their success while priding itself in the company's unique energy and believes this output of energy to be their competitive advantage in their international operations. Meritor begins with a culture which values diversity of people and their broad thought processes. Operating in 19 nations and employing over eleven thousand two hundred people, Meritor promotes collaboration and innovation among a team of experienced experts.

Meritor strongly believes in just employing future focused staff. These top-caliber individuals can rapidly adapt to changing environments and freely exhibit the level of performance and commitment needed in order to attain results for the competitive market environment. The business empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor provides all their employees different opportunities for personal and professional growth.

Their Advanced Engineering team is at the forefront of parts and system engineering which include drivelines, axles, suspension and braking systems for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is also responsible for supporting the needs of their international engineering personnel.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their production plants and aftermarket distribution facilities that are located all around the world in 19 countries and in 5 different continents.

The supplier development network is particularly situated so as to support new business development. Regional teams are supported by worldwide quality systems, centralized specialties and initiatives in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making in each and every part of the trade. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is likewise comprised of transactional Green Belts who use Six Sigma tools to business techniques and apply lean techniques.
