

Concrete Hoppers

Concrete Hopper - The self-dumping hopper attachment can automatically trigger to both unload and release whenever the bumper release touches the side of a dumpster. Once dumping is done, the hopper can go back to original locked and upright position. This particular piece of equipment is likewise accessible together with a cable that enables operation from the seat of the forklift in order to have the choice of manually dumping the hopper. There is a locking chain provided in order to lock the hopper to the fork truck. This particular product is constructed with reliable and consistent robotic welds for maximum strength. The lift truck dumping hopper even has a blue powder coat finish to maintain durability.
